

Brive Tonneliers

CERCLE DE MAÎTRES

For Brive Tonneliers, being a responsible company means committing on a daily basis to a proactive approach in all our activities, whether in the design and sale of our premium products, our employees' quality of life at work, reducing our ecological footprint or supporting heritage protection projects.

Corporate responsibility by Brive Tonneliers

Our mission

Our goal is to make Brive Tonneliers a key stakeholder in the production and aging of the best wines in the world. Therefore, we offer a wide range of solutions combining art, science, experience and innovation on a single site, where multiple activities are grouped together, to offer the best products to our customers.

A passion for excellence, a quest for perfection and an ethical code through sustainability, transparency and promotion of individual talents and teamwork are all factors which make our company a committed and responsible leader in the industry.

Our vision

At Brive Tonneliers we want to give meaning to performance, both measurable and qualifiable, for a responsible and lasting future. We want to continue our development across the world to support great wines and future great bottles in their quest for excellence.

Our resolutely responsible company is committed to a Corporate Social Responsibility process highlighting the talents of our employees, diversity and sustainable development.

The longevity of our industry is inevitably influenced by the management of our resources, the recycling of our waste and the transmission of our know-how. We pass the torch by developing training, taught on our site by our experts of the profession, in order to anticipate our future needs.

Our values

Our values and philosophy reflect the socially responsible company that we aspire to be, both at a social and environmental level. These principles are central to our every decision.

At Brive Tonneliers, we are responsible for everything we undertake, both as individuals and as a company. We must continue to be worthy of the trust placed in us, now and in the future, by constantly going above and beyond.

At each stage of our business, we seek exemplary behaviour, responsibility and altruism when it comes to respecting our strategy, our ambitions and innovations with seven basic principles:

- Seeking optimal solutions for our company, our employees, our customers and the world in which we live and grow;
- Selling products of excellence which is a reflection of our pride;
- Listening to our customers;
- Doing everything with honesty, sincerity and determination;
- Considering the short and long term to make our know-how sustainable;
- Emphasising diversity and distinctiveness;
- Treating each other with mutual respect and achieving results as a team.
